

Student Research Assistant Position

(For immediate start)

Overview

The Marlink Group at the Harvard School of Public Health AIDS Initiative invites applications for a paid student Research Assistant position. The RA will assist with data cleaning, management, and analysis for a large national database from Botswana. He/she will work in Boston at HSPH supervised by a member of the Marlink Group research staff, but will be expected to perform tasks independently.

Main Responsibilities

- Carries out designated data management and analysis tasks
- Keeps organized log of activities and progress
- Reports periodically to supervisor with materials for review
- Produces final databases ready for analysis

Requirements

We are looking for a student who is enthusiastic about research, willing to take initiative in his/her work, and demonstrate consistent follow-through. The ideal candidate will be familiar with statistical software, highly organized, and able to work independently.

Schedule

The research assistant will be expected to work part-time for the remainder of the academic year must be able to stay on through the summer months. Rates of pay follow HSPH standards with hours to be negotiated (The candidate can work up to 20 hours/week during the school term and 35 hours/week over the summer).

Note: Although we cannot guarantee this position past the end of the summer, the student may be permitted to use available data for his/her thesis during the upcoming academic year.

To apply, please forward your Resume and a brief description of your interest in the position, your availability in this academic year and the summer, and your familiarity with data management to Danae Roumis, droumis@hsph.harvard.edu
