

Upcoming CTSI Seminar

BUSPH Data Coordinating Center: *Demystifying SAS Macros*

Thursday, November 20, 2014

Instructional (L) Building, Room L213

12:00 – 12:50 pm

Tired of inefficient copying and pasting in your SAS code? Want to automatically populate output with key dates or numbers? Save time with SAS macros! Learn more about programming and using SAS macros with real world examples. This seminar will include an overview of macro structure, including detailed syntax examples and an explanation of macro libraries. Recommended for all SAS programmers and analysts.
