

CORRIGENDUM

Modulated electro-hyperthermia-enhanced liposomal drug uptake by cancer cells [Corrigendum]

Tsang YW, Chi KH, Huang CC, et al.
Int J Nanomedicine. 2019;14:1269–1279.

On page 1273 in Results section, the following sentence was presented incorrectly: “Therefore, we can confirm that

the cytotoxic enhancement of mEHT plus Lipodox® was due to increased release of doxorubicin in medium.” It should be as follows: “Therefore, we can confirm that the cytotoxic enhancement of mEHT plus Lipodox® was not due to increased release of doxorubicin in medium.”

International Journal of Nanomedicine**Dovepress****Publish your work in this journal**

The International Journal of Nanomedicine is an international, peer-reviewed journal focusing on the application of nanotechnology in diagnostics, therapeutics, and drug delivery systems throughout the biomedical field. This journal is indexed on PubMed Central, MedLine, CAS, SciSearch®, Current Contents®/Clinical Medicine,

Journal Citation Reports/Science Edition, EMBase, Scopus and the Elsevier Bibliographic databases. The manuscript management system is completely online and includes a very quick and fair peer-review system, which is all easy to use. Visit <http://www.dovepress.com/testimonials.php> to read real quotes from published authors.
