RETRACTION

A Novel Nanoemulsion-Based Method to Produce Ultrasmall, Water-Dispersible Nanoparticles from Chitosan, Surface Modified with Cell-Penetrating Peptide for Oral Delivery of Proteins and Peptides [Retraction]

Barbari GR, Dorkoosh FA, Amini M, et al. Int J Nanomedicine. 2017;12:3471-3483

The Editor and Publisher of *International Journal of Nanomedicine* wish to retract the published article. Concerns were raised regarding the alleged duplication of features within the image shown in Figure 4. The first author responded to our queries but was unable to provide the original images for Figure 4. The first author explained they were responsible for the preparation of the SEM images and wishes to apologize to the readers and other authors for any errors that may have been introduced to the image which led to the retraction of the paper. However, all the authors accept responsibility for the integrity of the reported research and agree with the decision to retract the article.

Our decision-making was informed by our policy on publishing ethics and integrity and the COPE guidelines on retraction.

The retracted article will remain online to maintain the scholarly record, but it will be digitally watermarked on each page as "Retracted".

International Journal of Nanomedicine

Publish your work in this journal

The International Journal of Nanomedicine is an international, peer-reviewed journal focusing on the application of nanotechnology in diagnostics, therapeutics, and drug delivery systems throughout the biomedical field. This journal is indexed on PubMed Central, MedLine, CAS, SciSearch[®], Current Contents[®]/Clinical Medicine, Journal Citation Reports/Science Edition, EMBase, Scopus and the Elsevier Bibliographic databases. The manuscript management system is completely online and includes a very quick and fair peer-review system, which is all easy to use. Visit http:// www.dovepress.com/testimonials.php to read real quotes from published authors.
