

RETRACTION

Synthesis and Characterization of Gold Nanorods and Their Application for Photothermal Cell Damage [Retraction]

Samim M, Prashant C, Dinda A, Maitra A, Arora I. *Int J Nanomedicine*. 2011;6:1825–1831.

The Editor and Publisher of *International Journal of Nanomedicine* wish to retract the published article. Concerns were raised regarding the alleged duplication of nanorods within the image shown in Figure 3. The authors responded to our queries but were unable to provide a satisfactory explanation for the alleged duplication, nor were they able to provide adequate original data that would verify the integrity of the reported findings.

The Editor requested for the article to be retracted and the authors were notified of this.

Our decision-making was informed by our policy on publishing ethics and integrity and the COPE guidelines on retraction.

The retracted article will remain online to maintain the scholarly record, but it will be digitally watermarked on each page as “Retracted”.

Publish your work in this journal

The International Journal of Nanomedicine is an international, peer-reviewed journal focusing on the application of nanotechnology in diagnostics, therapeutics, and drug delivery systems throughout the biomedical field. This journal is indexed on PubMed Central, MedLine, CAS, SciSearch®, Current Contents®/Clinical Medicine, Journal Citation Reports/Science Edition, EMBase, Scopus and the Elsevier Bibliographic databases. The manuscript management system is completely online and includes a very quick and fair peer-review system, which is all easy to use. Visit <http://www.dovepress.com/testimonials.php> to read real quotes from published authors.
