

Wenyang-Tianjing-Jieyu Decoction Improves Depression Rats of Kidney Yang Deficiency Pattern by Regulating T Cell Homeostasis and Inflammation Level [Corrigendum]

Zhang T, Wang J, Wang Y, et al. *Neuropsychiatr Dis Treat.* 2024;20:631–647.

The authors have advised the value for Huangbai solution gavage in the Experimental Design section and Figure 1 was miswritten as 0.36 g/kg. The correct value is 3.24 g/kg.

Page 633, Experimental Design, KYD Model section, third line from the bottom, the text “Huangbai solution gavage (0.36 g/kg)” should read “Huangbai solution gavage (3.24 g/kg)”.

Page 634, Figure 1, the correct figure is as follows.

Figure 1 (A) Outline of the experimental process. (B) Operation diagram of CUMS.

Publish your work in this journal

Neuropsychiatric Disease and Treatment is an international, peer-reviewed journal of clinical therapeutics and pharmacology focusing on concise rapid reporting of clinical or pre-clinical studies on a range of neuropsychiatric and neurological disorders. This journal is indexed on PubMed Central, the 'PsycINFO' database and CAS, and is the official journal of The International Neuropsychiatric Association (INA). The manuscript management system is completely online and includes a very quick and fair peer-review system, which is all easy to use. Visit <http://www.dovepress.com/testimonials.php> to read real quotes from published authors.
