

Long Non-Coding RNA JPX Contributes to Tumorigenesis by Regulating miR-5195-3p/VEGFA in Non-Small Cell Lung Cancer [Retraction]

Li G, Li X, Yuan C, et al. *Cancer Manag Res*. 2021;13:1477–1489.

We, the Editor and Publisher of the journal *Cancer Management and Research* have retracted the published article.

Following publication of the article, concerns were raised about the validity of the findings reported in the study. Additional assessment also found the duplication of images for Figure 5. Specifically,

- The flow cytometry images for Figure 5D, A549, miR-5195-3p and miR-5195-3p+vector, have been duplicated.

The corresponding author did not respond to our queries and was unable to provide a satisfactory explanation for how the images came to be duplicated or provide satisfactory original data for the study. As verifying the validity of published work is core to the integrity of the scholarly record, the Publisher and Editor requested to retract the article and the corresponding author was notified of this decision.

We have been informed in our decision-making by our editorial policies and COPE guidelines.

The retracted article will remain online to maintain the scholarly record, but it will be digitally watermarked on each page as “Retracted”.
