

HIV-Related Stigma Among Pregnant Adolescents: A Qualitative Study of Patient Perspectives in Southwestern Uganda [Corrigendum]

Kabunga A, Nabasirye CK, Kigingi E, et al. *HIV AIDS (Auckl)*. 2024;16:217–227.

On page 221, Results section, 2nd sentence should be “The average age of the respondents is 16.9 years, with a standard deviation of 3.5 years” instead of “The average age of the respondents is 6.9 years, with a standard deviation of 3.5 years”.

On page 221, Table 1, Age variable, 2nd column, “6.9 (3.5) should be 16.9 (3.5).

The authors apologize for any inconvenience caused by these errors and for any confusion that may have arisen as a result. We would like to assure the readers that these corrections do not affect the results or conclusions of the paper and are intended only to improve the accuracy of the methodology and data presentation.

Publish your work in this journal

HIV/AIDS - Research and Palliative Care is an international, peer-reviewed open-access journal focusing on advances in research in HIV, its clinical progression and management options including antiviral treatment, palliative care and public healthcare policies to control viral spread. The manuscript management system is completely online and includes a very quick and fair peer-review system, which is all easy to use. Visit <http://www.dovepress.com/testimonials.php> to read real quotes from published authors.
